Natural Resources for Human Health

an interdisciplinary journal dedicated to natural sciences

VISAGAA PUBLISHING HOUSE

Natural Resources for Human Health

Editorial Board

EDITOR-IN-CHIEF

Kannan RR Rengasamy
South Africa

CO-EDITOR

Carlos L. Cespedes Acuña,
Chile
Pasupuleti Visweswara Rao
India

HONORARY EDITORIAL ADVISORY BOARD

Satyajit D. Sarker
UK

ASSOCIATE EDITOR

Ahmad Ali, India
Sabya Sachi Das, USA
Balamuralikrishnan Balasubramanian, South Korea
Yogesh Khetmalis, USA
Ricardo Diego D.G. de Albuquerque, Brazil
Mohmed Isaqali Karobari, Cambodia
Shafi Ullah Khan, France
Shah Alam Khan, Sultanate of Oman
Karthikeyan Rajamani, India
Prathap Reddy Muktapuram, USA
Saurabh Srivastava, Malaysia
Manoj G. Kulkarni, South Africa
Haipeng Lv, China
Si Mi, China
Ren Wang, China
Prathapan Ayyappan, USA

EARLY CAREER EDITORIAL BOARD MEMBERS

Prabu Kumar Seetharaman, China
T. P. Ijiru, Kerala
Ulaganathan Arisekar, India

Natural Resources for Human Health

Aim & Scope

Natural Resources for Human Health covers a wide range of natural science disciplines. Such fields can be at all aspects of works bearing on natural compounds of plants, algae, microbes and animals. Manuscripts of basic and applied research are welcome, clear kinetic hypotheses are created, and descriptive approaches are prevented. In addition, high-quality review articles will be considered, following an integral approach and stimulating thinking for future research pathways.

Natural Resources for Human Health welcomes high-quality manuscripts related (but not limited) to life science research and:

- Biology: Taxonomy, conservation and genomics approaches for the conservation of critically endangered species.
- Biological Chemistry: Understanding the chemistry of living things.
- Medicinal Chemistry: Toxicology, Pharmacology, Pharmacognosy, Nutrition and Health, Therapeutics, Bioactive Compounds, Detoxification, Biological activities.
- Pharmaceutical Formulations: Formulations from natural products, Analysis, Quality Controls.
- Agricultural and Food Chemistry: Food Technology, Agricultural and Food Safety, Food analysis.
- Applications of Natural Resources: Cosmetics, Dietary Supplements, Nutraceuticals, Bio-Pharmaceutical Science, Waste and co-product valuation.
- Traditional Medicine: folkloric medicine, ethnobotany, ethnopharmacology.

Unraveling the Biosynthetic Gene Clusters and In Silico Insights into Meroterpenoids from the Indonesian Marine Sponge Endosymbiont Fungus *Aspergillus nidulans*.....11

Erlidawati, E., Mustika, C. R., Musman, M., Winahyu, D. A. & Kurnianda, V.

The Impact of *Lactobacillus casei* in Soy Yogurt for Healthy Aging.....24

Legowo, L. V., Wargasetia, T. L. & Rahardja, F.

A Comprehensive Review on Essential Oil Composition and Gastric Effect of *Minthostachys mollis*: An Ethnomedicinal Resource from Andes32

León-Vargas, F. R., de Albuquerque, R. D. G., Hajdu, Z., Carrasco-Montañez, D. D., Ramos-Rivas, Y. V. S., Del Castillo-Mozombite, D. M. & García-Navarro, M. R.

Natural Resources for Human Health

Characterization, molecular docking, and therapeutic properties of biomaterial obtained from *Pangasianodon hypophthalmus*. 40

Meganathan, G. & Pappuswamy, M.

Efficacy of JaminTea Herbal Mouthwash Against *Streptococcus mutans*, *Porphyromonas gingivalis*, and *Candida albicans*57

Sugiaman, V. K., Prahastuti, S., Jeffrey, J., Widowati, W., Ayuni, V. & Hadiprasetyo, D. S.

Evaluation of Anti-arthritic Activity of ArthoCan – V50 Tablets using CFA induced Rheumatoid Arthritis in Wistar rats.69

Tavhare, S., Jadhav, S., Undale, V., Deshpande, S. & Mehta, V.

Chemical Composition and Bioactivities of Pomelo (*Citrus maxima*) Peel Essential Oil.88

Hao, P. M. & Quoc, L. P. T.

Mineral Composition and Health Risk Assessment of Winter-Grown Vegetables from West Bengal, India.95

Adhikari, T., Majumdar, A. & Saha, P.

Pharmacognostical Standardization, Antioxidant, and in Vivo Dermal Toxicity Studies of Polyherbal Extract106

Sharma, P. & Verma, S.

Natural Resources for Human Health

Investigating the Potential of *Sivanarvembu Kuzhi Thailam*, A Classical Siddha Formulation Against Psoriasis: GC-MS Analysis and Molecular Docking Studies..... 121

Gunalan, G., R. R. & Kumar, R.

Effect of Multiple Mutation in PZase From Clinical Isolate of Pyrazinamide-Resistant *Mycobacterium tuberculosis* on Its activity and structure 136

Purkan, P., Estiawan, R., Siswanto, I., Hadi, S., Sumarsih, S.,
Abdjan, M. I. & Rajakumar, M. S.

***Blumea balsamifera* Extract Induces Apoptosis and Cell Cycle Arrest in T47D Cell Line. 147**

Kamila, F. S., Rosyadah, N., Widyananda, M. H., Hermanto, F. E., Afiyanti, M.,
Dwijayanti, D. R. & Widodo, N.

Exploring Pigeon Pea (*Cajanus cajan*) as a Functional Food: Nutritional Profile, Bioactive Compounds, and Enzyme Inhibition for Glycemic Control..... 160

Purwanti, E., Hermanto, F. E., Rachmawati, F., Hasan, A. H., Nuryady, M. M.,
Permana, T. I. & Prihanta, W.

Advancing Traditional Medicine in India: Academic, Research, and Regulatory Perspectives on Ayush Systems 179

Javed, G., Shree Devi, M.S., & Chowdhury, S. R.

Natural Resources for Human Health

Unripe Fruits Found as Sources of Bioactive Compounds: A New Frontier in Drug Discovery.....190

Chakraborty, A., Giri, S., Hazra, S., Sarkar, A., Chakraborty, P. & Adhikari, T.

**Exploring the Potential of Red Fruit Oil to Modulate Melanogenesis
by Evaluating MITF Gene Expression in a-MSH-Induced B16F10 Melanoma Cells 211**

Trisnawaty, S., Gunadi, J. W. & Ratnawati, H.

**Application of CRISPR/Cas9 in Reconstructing Bacterial Deoxyribonucleic Acid
for the Production of Biologically Active Compounds..... 221**

Tran, C. L. & Nguyen, K. D.

**Antibiotic resistance and herbal alternatives in endodontics: mechanisms,
evidence, and clinical outcomes.235**

Karobari, M. I.

**A clinical evaluation of liposomal (Lipomac™) versus nonliposomal vitamin C:
A randomized, open-label, cross-over trial in healthy subjects.249**

Thimmannagari, S., Shivaprasad, H. N., Chatterjee, A., Krishnamani, M.,
Soni, G. & Manohar, D.

**Computational identification of hub genes and bioactive compounds in breast
cancer via meta-analysis of transcriptomic data, network pharmacology, molecular
docking, and ADMET evaluation.....257**

Tih, F., Simanjuntak, R. L. D. & Sanjaya, A.

Natural Resources for Human Health

An Ethnopharmacological Survey and Antioxidant Properties of Medicinal Plants Used to Treat Cutaneous Leishmaniasis in Central Morocco: Health Professionals' Knowledge of Local Community Use.269

Takzima, M., Echchakery, M., Hafidi, M. & El Fels, L.

Calamondin (*Citrus microcarpa*) Peel Essential Oil: Physicochemical, Chemical, and Biological Properties..... 280

Thuan, N. N., Quoc, L. P. T., Phuong, L. B. B. & Quyen, P. T.

Phytochemical and In Vivo Antinociceptive and Anti-Inflammatory Studies of *Eleutherine palmifolia* Ethanolic Extract287

Kusumawardani, N. I., Nawir, S. K., Khaerah, U., Hafiyani, L., Sulfahri, S., Khuzaimah, A. & Djabir, Y. Y.

Serum Formulation Containing Salmon DNA and Various Plant Extracts as Antioxidant and Anti-aging on UV-Induced Human Skin Fibroblast Cells.....296

Widowati, W., Tjokropranoto, R., Onggowidjaja, P., Na, M. K., Triharsiwi, D. N., Hadiprasetyo, D. S., Alexandro, G., Azis, R., Abass, K. S. & Utomo, H. S.

Potency of Rambutan (*Nephelium lappaceum* L.) Peel Extract to Overcome Skin Aging..... 309

Jasaputra, D. K., Kim, Y. H., Wargasetia, T. L., Widowati, W., Herdiman, H., Romdhon, A. N. F. & Distya, A. P.

Natural Resources for Human Health

***Holothuria scabra* Methanol Extract Induces Apoptosis Via Modulation of Bax/Bcl-2 in Breast Cancer Mice Model324**

Ratnawati, H., Wargasetia, T. L., Sanjaya, A., Syahputra, D. P. R. & Wijaya, J.

Phytochemical Profiling and Network Pharmacology-Based Evaluation of Aphrodisiac Potential of *Mirabilis jalapa* L. Root Extract.....335
